## BRIEF DESCRIPTION

---

**Actively Managed Certificates do not constitute collective investment schemes within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA") and are therefore neither governed by the CISA nor subject to the supervision by the Swiss Financial Market Supervisory Authority ("FINMA"). Accordingly, holders of this product (the "Product") do not have the benefit of the specific investor protection provided under the CISA. Holders of the Product bear the issuer’s credit risk. Furthermore, investors should be aware that AMCs have a dynamic, discretionary structure, which may result in changes to the Product terms and/or the Strategy-Components.**

The Issuer was incorporated on 11 April 2025 as a Protected Cell company limited by shares under the laws of Guernsey under registration number 75583. The registered office of the Issuer is at Suite 6, Provident House, Havilland Street, St. Peter Port, Guernsey GY1 2QE.

### **Issuer/Calculation Agent**

Vision Alpha PCC Ltd (a Protected Cell company incorporated with limited liability under the laws of Guernsey). Vision Alpha PCC Ltd is not licensed or registered in Guernsey by the Guernsey Financial Services Commission ("GFSC") or registered or authorised by GFSC as a collective investment scheme and GFSC has not and will not approve the content or dissemination of this AMC or any other document relating to or in connection with this AMC. Protected Cell CH1427489872 is a protected cell of Vision Alpha PCC Ltd, was created for the specific purpose of issuing the AMC, and is operated and controlled by the Directors of Vision Alpha PCC Ltd. As a matter of Guernsey law, each cell of the Issuer is a protected cell of assets and liabilities, wholly separate and distinct from any assets or liabilities of any other protected cell(s) of the Issuer or any assets or liabilities of the Issuer which are not attributable to any protected cell of the Issuer.

<b>Paying Agent</b>	ISP Securities AG, Switzerland
<b>Custodian/Broker</b>	Advanced Markets (UK) Limited, United Kingdom
<b>Strategy-Manager</b>	Optimus Analytics Inc., Virgin Islands (British) (the "Strategy-Manager"). The Strategy-Manager is not subject to prudential supervision by the Swiss Financial Market Supervisory Authority (FINMA).

## PRODUCT INFORMATION

---

<b>Description</b>	<p>This Product (hereinafter, also "Certificate", "Note" or "AMC") is an Actively Managed Certificate. The Product allows for participation in the performance of the Underlying (the "Strategy"). The Strategy reflects a notional actively managed portfolio of assets and cash, maintained by the manager (the "Strategy-Manager"). The performance of the Strategy is tracked via the calculation of the Strategy-Level.</p> <p>The holders of the Product (hereinafter, "Holders of the Product", "Holders of the Certificate" or "Note Holders") have exposure to the same performance a real portfolio would have, if it was actually managed according to the Strategy. However, the Holders of the Product will not be entitled to real assets in a real portfolio and have only a claim against the Issuer on the payment of the Redemption Amount based on the Strategy-Level at the Final Valuation Date.</p>
<b>Underlying</b>	<p>The Underlying is a basket representing a notional, actively managed portfolio (the "Reference Portfolio") of assets including cash in the Currency of the Product (the "Strategy-Components"). The basket is selected and managed by the Strategy-Manager in accordance with this termsheet ("Termsheet"), the "Investment Strategy" referred to here below as well as the investment universe (the "Investment Universe"), the guidelines (the "Strategy-Guidelines") and the investment restrictions (the "Investment Restrictions"), as per Annex 1.</p>
<b>Investment Strategy</b>	<p>The investment objective of the AMC is to generate long-term capital growth by delivering consistent, uncorrelated risk-adjusted returns through advanced quantitative models and proprietary algorithms applied across global financial markets. While the Strategy primarily focuses on foreign exchange (FX), it is designed to be adaptable, allowing for expansion into other asset classes as opportunities arise.</p> <p>Employing a systematic, rules-based approach, the Strategy identifies market inefficiencies, captures short- to medium-term trends, and exploits microstructural patterns to generate alpha. At its core is the</p>

integration of machine learning, a powerful subset of artificial intelligence (AI), which enhances predictive modeling and enables the continuous refinement of trading signals in dynamic market environments.

Throughout execution, rigorous risk controls are maintained to preserve capital, manage volatility, and ensure disciplined performance across varying market conditions.

<b>Reinvestment of Returns</b>	Any amounts reflecting net dividends and/or interest rates in a real portfolio consisting of the Strategy-Components will be added to the cash component of the Underlying. Any withholding taxes or similar taxes that might be charged on any of the Strategy-Components by tax authorities will not be reclaimed and will not be added to the cash component of the Underlying.
<b>Initial Weighting of the Strategy-Components</b>	The Strategy-Manager starts to implement the Strategy at the first possible trading day after Payment Date according to this Termsheet, the Investment Strategy, the Investment Universe, the Strategy-Guidelines and the Investment Restrictions. The Initial Strategy-Components will depend on the market conditions at the time the Strategy-Manager starts to implement the Strategy.
<b>Strategy-Level (t)</b>	Sum of the value of each of the Strategy-Components on any trading day t, converted to the Currency of the Product at the prevailing exchange rate(s), less all costs linked to the management of the Strategy including (but not limited to) fees, expenses, hedging and transaction costs, custody fees and taxes (if any), and divided by the sum of outstanding Certificates on such trading day t, as calculated by the Calculation Agent.
<b>Early Redemption Event</b>	The Issuer has the right to partially or fully early redeem the Note by a cash amount ("the Partial/Full Early Redemption Amount") on any Early Payment Date. Note holders would be notified on the corresponding Early Valuation Date.
<b>Early Payment Dates</b>	The 15th in each month, from and including the Issue Date to and including the Final Valuation Date, adjusted as per the Business Day Convention.
<b>Early Valuation Dates</b>	Ten business days before the Early Payment Date.

<b>Redemption Amount</b>	<p>On Redemption Date, the Certificates will redeem a cash amount in the Currency of the Product equal to the Strategy-Level on the Final Valuation Date, as calculated by the Calculation Agent.</p> <p>The Strategy Manager, as appointed by the Issuer, is responsible for the Strategy. No party, including the Paying Agent, is therefore liable to any party for any loss in connection with the investment, nor for the performance of the Strategy. A Noteholder's entitlement is limited at all times to the Redemption Amount at Final Valuation Date. In a worst case scenario, the Redemption Amount may be zero. Noteholders should be aware that positive performance of the Strategy cannot be guaranteed.</p>
<b>Prices of the Strategy-Components</b>	<p>The prices of the Strategy-Components used as a basis for the calculation of the Strategy-Level are calculated at the sole discretion of the Calculation Agent, based on the values provided by the Custodian, as applicable, or any other third party source that the Calculation Agent may deem appropriate to determine the fair value of the component.</p>
<b>Price of the Certificate</b>	<p>The price of one unit of this Product on a specific trading day <math>t</math> is equal to Strategy-Level(<math>t</math>).</p>
<b>Selection / Adjustments / Rebalancing of the Strategy-Components</b>	<p>Adjustments of the Strategy-Components are actively made by the Strategy-Manager.</p>
<b>Termination Event</b>	<p>The Issuer and the Strategy-Manager have the right to terminate the Product at any time ("the Termination Date") without a specific reason, by notifying the Holders of the Certificate on the earliest possible date.</p>
<b>Consequences of a Termination Event</b>	<p>Following a Termination Event, the Certificates will redeem a cash amount in the Currency of the Product equal to the Strategy-Level on the Termination Date ("the Termination Amount") as calculated by the Calculation Agent.</p> <p>Investors should be aware that the Termination Amount may be, due to unfavorable market conditions, considerably lower than the Issue Price or the last valuation of the Product before the Termination Event.</p> <p>The Issuer has the right to reduce the Termination Amount considerably (including to zero) in certain situations. This may include, but is not limited to illiquidity or insolvency of an underlying asset(s) distressed situations related to or impacting an underlying asset.</p>

## ANNEX 1

It is the sole responsibility of the Strategy-Manager to ensure that the Strategy and the Strategy-Components as well as the investments correspond to the Investment Universe, the Strategy-Guidelines, and the Investment Restrictions. Neither the Issuer, nor the Paying Agent, nor the Custodian, nor the Calculation Agent, nor any other involved party apart from the Strategy-Manager carries out any supervision in that regard.

The Strategy-Manager, acting on behalf of the Issuer, is not obliged to invest according to the Strategy, e.g. it can invest in assets other than the Strategy-Components. However, the investor is still entitled to receive the Redemption Amount as outlined in this Termsheet independent of the returns of the investments of the Issuer.

### Investment Universe

The Investment Universe consists of the following asset / asset classes and represents the basis for the selection, adjustment and rebalancing of the Strategy-Components by the Strategy-Manager. The Investment Universe may be amended by the Strategy-Manager at any time and in its sole discretion.

## **Strategy Guidelines**

The Strategy-Components are selected, adjusted and rebalanced by the Strategy-Manager in accordance with the following guidelines (the "Strategy-Guidelines"):

1. Machine-Learned Statistical Probability Model
  - a. The Strategy leverages a cutting-edge machine-learned statistical probability model to identify high-probability trading opportunities. By analyzing vast datasets and uncovering predictive patterns, the model ensures data-driven decision-making and adaptability to evolving market conditions.
2. Basket-Based Position Building
  - a. Positions are built using baskets of trades that exploit correlations among G7 major currencies. This approach takes advantage of price retracements in correlated currency pairs, balancing risk while enhancing return potential.
3. Precision Timing Component
  - a. A timing-based framework ensures trades are executed at optimal moments, maximizing efficiency and minimizing slippage. Real-time data and advanced analytics are used to pinpoint precise entry and exit points.
4. Trend Momentum Component
  - a. A trend momentum component is integrated to capture short- to medium-term trends in the FX markets. By aligning with directional movements, this element amplifies the Strategy's ability to generate alpha during trending phases.
5. Exclusive Focus on G7 Major Currencies
  - a. The Strategy focuses exclusively on the G7 major currencies (USD, EUR, JPY, GBP, CAD, CHF, AUD), which provide deep liquidity, lower spreads, and reduced volatility. This focus ensures stability and minimizes execution risks.
6. Enhanced Risk Mitigation Framework
  - a. Risk management is central to the Strategy. A robust framework—including position sizing, stop-loss mechanisms, stress testing, and dynamic exposure adjustments—ensures capital preservation and limits drawdowns during adverse market conditions.
7. Continuous Model Optimization
  - a. The machine-learned models are continuously updated and refined using real-time data, ensuring they remain effective in dynamic and changing market environments.
8. Proprietary Algorithms for Execution
  - a. Trades are executed using proprietary algorithms that optimize order routing, minimize transaction costs, and ensure seamless implementation of the Strategy.
9. Dynamic Adaptation to Market Regimes
  - a. The Strategy dynamically adjusts to different market regimes—such as trending, range-bound, or volatile conditions—ensuring adaptability and resilience across various environments.
10. To support the attainment of its objectives, the Strategy-Manager licenses a broad range of technologies. Performance Fees generated are paid to the Strategy-Manager and allocated equally at the discretion of the Strategy-Manager, with 50% distributed to technology providers and 50% to the Strategy-Manager.

## **Investment Restrictions**

The following Investment Restrictions are applicable for the Strategy-Manager:

- Leverage through credit raising.
- Long positions in US dividend-paying stocks.

## ANNEX 2

### Broker Fees

Average Broker Transaction Fee: As per fee schedule of the respective Custodian/Broker (as applicable).

### Performance Fee

#### **High Watermark**

Applicable. For the first Performance Fee Observation Date ( $t=1$ ), the High Watermark is equal to the Issue Price less the Distribution Fee (if any). Thereafter, if the Strategy-Level ( $t$ ) on the Performance Fee Observation Date ( $t$ ) is higher than the previous High Watermark, the High Watermark is set to that level after deduction of the Performance Fee Amount and any Coupon Amount and/or Partial Redemption Amount paid from and excluding Observation Date ( $t-1$ ) to and including Observation Date ( $t$ ).

#### **Performance Fee Entitlement**

A Performance Fee Amount is paid to the Strategy-Manager if the performance of the Certificate with respect to the High Watermark on the relevant Performance Fee Observation Date exceeds the Hurdle Rate, i.e.:

$$\left( \frac{\text{Strategy-Level}(t)}{\text{High Watermark}} - 1 \right) > \text{Hurdle Rate}$$

#### **Performance Fee Calculation**

Performance Fee Amount is equal to:

$$\begin{aligned} & \text{High Watermark} \times \\ & \times \left( \left( \frac{\text{Strategy-Level}(t)}{\text{High Watermark}} - 1 \right) - \text{Hurdle Rate} \right) \times \\ & \times \text{Performance Fee} \end{aligned}$$

where:

- *Strategy-Level(t)* is the value of the Certificate on the Performance Fee Observation Date ( $t$ ), before deduction of the Performance Fee.
- *High Watermark* is the highest level of the Certificate on any of the previous Performance Fee Observation Dates ( $i < t$ ) after deduction of the Performance Fee.

The Performance Fee Amount cannot be a negative number.

#### **Performance Fee Observation Dates**

Quarterly on the last business day of March, June, September and December, from and including the Issue Date to and including the Final Valuation Date.
